## CONTINUING HEAVY PRESSURES ON ENTIRE FRONT ALLIES ARE HAMMERING GERMAN LINES TO PIECES

Haig's Troops Pressing in on Armentieres Are Menacing Lille.

Telling Progress Made by French and Americans.

Americans Move Up Along the Aisne Line.

American Positions in Loraine Are Heavily Bombarded by Huns.

(By War Editor of The Associated Press)

Continuing their pressure along the front from Rheims to Ypres the allied forces are pushing back the Germans on virtually this entire 150-mile line.

Telling progress has been made in particular by the French and American troops along the southern part of the front. The French are before the old Hindenburg positions along a considerable stretch in this sector where they are closing in upon the bastion of St. Gobain, the keystone of the German defensive system in the west.

Further north the enemy is still in retreat before the French and British who are capturing town after town in making rapid strides toward the line from which the Germans attacked in their offensive last March.

Ham is almost within the allied grasp and Chauny is seriously threatened.

The Americans have moved up along the Aisne line reaching the ground immediately south of the river. The Germans north of the stream appear inclined to halt temporarily but there seems to be no question that they will speedily be forced to resume their rearward march and not halt it again until the old Chemin-des-Dames line is reached.

Through the continued French progress on the German right flank north of the Aisne even the Chemin-des-Dames line seems virtually outflanked and the retirement may not stop short of the Allethe.

The campaign for Cambrai has halted as far as the push on the direct line for the city is concerned, but the advances which the allied forces are making southward along the line are calculated to work notably to the main success of the drive.

The Canal Du Nord has been passed in this sector.

On the Flanders front the British pressure seems likely to drive the Germans further than they had intended going in their retirement. Haig's troops are pressing in on Armentieres, both from the north and the south and their thrust seems likely soon to be considered as threatening Lille, the great manufacturing center of northern France.

In this sector the British are moving east from Neuve Chapelle, which now is in allied hands and have pushed

### DISABLED YANKEE TAUGHT TO WRITE

PREPARING DISABLED SOLDIER FOR BUSINESS.

It is the constant aim of the Government, expressed through the army medical department, to do everything possible, not in the way of charity, but practical help for future usefulness and self support, for the American fighters who have given their all for their country. This photo, taken at the Walter Reed Reconstruction Hospital at Washington shows a wounded American, disabled in action, being taught to write with the aid of a device attached to his arm. The men are being taught to prepare for future business work.

### BIGGEST REVENUE BILL IN WORLD'S HISTORY

WASHINGTON, SEPTEMBER 6.—(Associated Press Dispatch)—The war revenue bill, greatest measure of its kind ever brought before the legislative branch of any government, passed into the second stage of its passage through Congress today when it came up in the House with about one-half of the members ready in their seats. The bill provides the means of raising \$24,000,000,000 to pay America's share for the coming year.

The plan is to pass the measure through the House and have it ready for the Senate in ten days.

ed at several points beyond the old German line.

In Lorraine where the Americans hold the eastern end of the line the Germans have bombarded heavily their positions at Frapelle.

### AMAZING RESULT OF STRATEGICAL OFFENSIVE ATTACK

Huns Forced to Retire From a Strong Position by an Attack Ten Miles Away.

(By Associated Press Cable)

American Army Headquarters in France, September 5. — There probably never was a neater instance of a strategical offensive than the fashion in which the Germans along the Vesle were put to flight by a blow struck many miles to the west of them.

Had the Americans attempted to force the line of the Vesle tactically we should have lost at least 10,000 and possibly three times that number.

### MANGIN'S ARMY IS IN SIGHT OF LAON

Debeney's Steadily Advancing Forces Completely Encircle Ham.

(By Associated Press Cable)

Paris, September 6.—(3:35 p. m.)—General Debeney's army is steadily advancing in the direction of Ham, which has been completely encircled.

General Mangin's troops are now in sight of Laon, having reached positions within ten miles of that city. French troops have reached the Aisne on a large front.

### PHYSICALLY FIT REPLACED IN CLERICAL WORK

Secretary Baker Will Use Physically Unfit in Departments.

Washington, September 6. — Secretary of War Baker has ordered the chief of each bureau in the War Department to replace by December 31 all men within the draft ages who would be classified in Class One now assigned to duty in Washington or in War Department branches elsewhere, with men physically disqualified for general military service.

### HUNS RUSHING GUNS TO REAR

Fire of Enemy's Field Pieces Is Notably Decreasing Preparatory to Big Retreat.

(Associated Press Cable)

With the British Armies in France, September 6.—Australian troops have crossed the Somme on a wide front to the south of Peronne.

Along the whole front from its southern extremity to the Bapaume-Cambrai road the fire of the enemy's big guns is dwindling. This indicates that the Germans are making strenuous efforts to get their artillery behind the Hindenburg defenses.

In many places north of the Senne river the Germans are firing thousands of gas shells indiscriminately. West of LaBasse the British have pushed steadily forward. Many fires are raging and explosions are occurring over the whole area from which the Germans are retreating.

### CARRIED OUT COUNTER OFFENSIVE OF FOCH AT THE AISNE AND MARNE

General Fayolle, it has been announced in Paris, is the man whom Marshal Foch entrusted with the carrying out of his plan for the splendid Franco-American counter offensive between the Aisne and the Marne. It was in this counter move, which began on July 18, over a front of twenty-seven miles, that the Americans covered themselves with glory. It was General Fayolle who stopped the enemy rush toward Paris at the end of last March. He also played an important part in forcing the Germans to retreat on the Somme in 1916. He has also been in command of the French troops operating in Italy.

### WEAKENED HUN MORALE CAUSES LIGHT ALLY LOSS

Military Experts to Attribute Conditions to the Huns Being Outfought.

(By Associated Press Cable)

London, September 5. — The light losses of the allied troops and the large numbers of German prisoners taken by them in the present offensive are attributed to the temporary lowering of the fighting power of the German army as result of being "outfought" and certain disorganization due to the general retreat under constant heavy pressure. Military experts expect an improvement in the enemy morale when these factors are removed.

### MARTIAL LAW TO QUIET BERLIN

(By Associated Press Cable) Amsterdam, September 6. — The Province of Brabant have been placed under martial law to a state of strict discipline for a fine or persons inventing true rumors calculated to excite the population, according to papers.

### DUTCH IRE IS AROUSED

(Associated Press Cable)

The Hague, September 6.—The Dutch minister at Berlin has been instructed to protest against the destruction by German submarines of vessels within what is designated as the barred zone and against the sinking of seven Dutch fishing vessels on August 24.

### AMERICA LEADS ALL WORLD IN SHIP BUILDING

By Associated Press Dispatch.

Washington, September 6.—America is now leading the world in ship production. Comparison of figures on deliveries announced by the Shipping Board show that the United Kingdom plants have produced 1,545,826 tons and the United States yards 1,636,403 dead weight tons since January 1st.

### N. Y. OBSERVES LA FAYETTE DAY

By Associated Press Dispatch.

New York, September 6. — The 161st anniversary of the birth of the Marquis de LaFayette and the 4th anniversary of the battle of the Marne were celebrated jointly in New York today by a series of patriotic exercises. The French tricolor was liberally displayed throughout the city.

### PLANE LOSSES

(Associated Press Cable)

London, September 6.—Since August 8th, 465 enemy machines have been shot down and more than 200 brought down out of control, a statement issued today by the Air Ministry says.

Sixty-one German balloons were destroyed and 911 tons of bombs were dropped behind the enemy lines. Two hundred and sixty-two British machines failed to return.

### ROLL OF HONOR

The two casualty lists announced today contain the names of 744 Americans, including 28 Ohioans.

The list of Ohioans includes the name of Lt. Hugh Hildebrandt, who was badly wounded sometime ago, announcement of which was carried at that time.

Of the casualties announced today 50 were killed in action; 139 missing in action; 263 wounded severely; 26 died of wounds; 254 wounded degree undetermined; 10 died of disease and two killed in accident, etc.

### FIVE ARE LOST

## SOLDIERS' LETTERS

Camp Upton,  
Long Island, N. Y.

Mrs. J. C. Coit,  
Washington C. H., Ohio.

Dear Sister:

I landed here safe and sound, this is Sunday morning and have not done anything except eat breakfast. Was not tired when I got here after 3 days and 2 nights on the train. Was treated fine all the way and the Red Cross met the train at every stop with cigarettes, candy and some thing to eat. Have not seen all of the camp yet. It looks like it is larger than Fort Benjamin Harrison. We are 10 miles from New York city went by it on the ferry with the Statue of Liberty standing out in the distance. The city with the tall buildings is a sight never to be forgotten. The Woolworth building stands out from the rest of them like a monument. It is so much taller than the rest of them. Landed from the boat in Brooklyn and took

the train out here. It is one village after another in Long Island and all fine houses. The Camp is located on the sand of Long Island.

They all landed in good shape. We are still together, the boys of O. M. I. I mean 69 of us still look out after one another. Have been invited by the Y. M. C. A. to church this morning.

I enjoyed the trip out here with its beautiful scenery along the line. Have a good place to sleep. Have a spring cot with a fresh straw tick on it. Filled it with new straw last night before I went to bed. The weather is cool up here—just right to be comfortable. Got up about 10 minutes of 7 o'clock this morning.

Do not know how long we will be here, but judge that we will not be here long. I hope I am right, for I want to go on over where I can do something that will do some good. Do not worry about me for I will see you all when the war is over. I would not step out of the army if I had the chance, and you can say that I went willingly.

Your Brother,  
PVT. LEROY CARR,  
Company G, 22 Engineers,

## THOUGHT ONE CLEAN SHIRT ALL HE NEEDED

Ten years ago I was reduced to a mere shadow. I was yellow as a gold piece and would often be doubled up with most excruciating pains in my stomach. Physicians could only relieve me with morphine. I was advised to try Mayr's Wonderful Remedy and it helped me at once. What is more, I have been well ever since. A friend said he thought one more clean shirt all I would ever wear. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Blackmer & Tanquary or Frank Christopher and druggists everywhere. Advt.

## MANY CHANGES IN PERSONEL OF Y. M. C. A. MANAGEMENT

Herbert Brownell Succeeds Wm. M. Campbell as President of Board; New Board Members Named, New Physical Director Coming and Secretary Wanted

Following the recent resignation of Wm. M. Campbell as president of the Board of Trustees of the Y. M. C. A., Herbert Brownell has been elected member of the Board of Trustees and President of the Board, succeeding Mr. Campbell, who had been president of the Board for two years or more.

Frank Jackson also was elected to succeed M. S. Daugherty as member of the Board of Trustees.

In accordance with plans for increased activity in Y. M. C. A. circles during the remainder of this year and throughout the winter and spring, A. C. Kiester, an experienced physical director, of Cincinnati, has been employed to take charge of the gymnasium and equipment and instruct the numerous classes which will be formed within a short time.

Physical Director Kiester will arrive in this city Monday of next week, and his family will be moved to this city at a later date. He has been actively associated with the Cincinnati Y. M. C. A. plants for several years, and the Board of Trustees is pleased to have obtained an experienced man for the work.

A new General Secretary to succeed Percy Harold Hays, who recently resigned in order to enter military training in the near future, is being sought, and it is expected that the new secretary will be located within a short time, and the plant will then be ready for the increased activities of the fall and winter.

## WEEK-END ATTRACTION AT COLONIAL THEATER

One of the most entertaining photo dramas of the season is the week end showing at the Colonial, "Up The Road With Sallie," starring the fascinating Constance Talmadge.

The picture includes many moments of delightful humor, heightened by dramatic passages which make it an ideal vehicle for Miss Talmadge as well as William D. Taylor, co-starring with her and admittedly one of the leading men in this branch of the motion picture industry. The combination of Miss Talmadge's and Mr. Taylor's talents make this picture one of the choicest screen treats of the year.

As Sallie Water, this captivating comedienne has a role in which her delightful vivacity and charm are given free rein. She inherits five thousands dollars along with other legacies unknown to her; the one who makes best use of his portion of the inheritance is to receive the balance of the estate. Sallie kidnaps her aged and dignified aunt in her automobile, but when a storm comes up, they take refuge in a deserted house. There, however, they discover two young men; Sallie recognizes the ring one of them is wearing as having belonged to her late uncle and suspects that they are burglars who have broken into this house for

roll of bills, the young men also suspect her of having come to this out-of-the-way place for a similar purpose.

When the sheriff arrives and quarantines them, each group believes its suspicions confirmed. Finally the owner of the house appears and their true identities are revealed, making a surprising and unexpected denouement.

"Up the Road With Sallie" shows tonight and Saturday.

## DITCH HEARING IS ADJOURNED--YET

For the "steenth" time, or more, the Kirkpatrick tri-county ditch hearing was adjourned in Circleville, on Thursday, and the next of the long series of meetings will be held on January 15th, at which time it is expected some progress will be made once more.

The Kirkpatrick tri-county ditch, which is located in Fayette, Pickaway and Ross counties, was taken up some three years ago, and since that time negotiations have been under way.

Various hitches have occurred, and the proceedings were tied up for a time by injunction proceedings, after which delay it was found that because of sharp advances in the price of materials, the original estimates of the cost were too low, and new estimates are necessary.

The county commissioners, Prosecutor Harry M. Rankin and Engineer Frank M. Kennedy were in attendance at the meeting Thursday.

## NOTED ACTOR AT PALACE THEATER

Those who have always known and greatly admired Frank Keenan's ability as a portrayal of sterner roles, were delighted to make his acquaintance as a comedian, in "More Trouble" showing at the Palace Theater last night and tonight.

Mr. Keenan's claim as peer of all actors in his interpretations of roles of eccentricity is more than ever established by his work in "More Trouble."

With a plot abounding in unusual and humorous episodes, faultless interpretation by Mr. Keenan in the leading role this picture is sure to please everybody.

With the dominant interest of the hour—the war and its activities—it seems strange that more people are not seeing the War Review pictures. This is probably due to the fact that there is a misunderstanding as to what the War Review is like. There are no battle scenes, no gruesome sights in this review. It is a reproduction of current war activities—presented for the purpose of giving out authentic information and to encourage people by showing them the great things that are being accomplished. The Government wants people to see these films, which they are putting out at such expense and effort.

There were two splendid crowds at the Palace last night, but many saw "More Trouble" without remaining for the War Review.

## DOCTOR PRESCRIBED VINOL

For This Poor Mother Who Could "Hardly Drag Around."

Glasgow Jet., Ky.—"I am a farmer's wife and was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight."—Mrs. S. M. Gray.

The reason Vinol proved such a wonderful strength creator in Mrs. Gray's case is because of the beef and cod liver peptones, iron and manganese peptones and glycerophosphates combined in a pure, native tonic wine, which makes Vinol the most successful tonic. ## Be Careful

It will be but a few days now until the work of registering the man power of the nation, in accordance with the provisions of the recently enacted law will begin.

Following the registration will come the more critical and exacting work of classifying the registrants for service and, regarding that work, a word of warning to people generally is not only proper but important.

While the exemptions provided for in the new law are somewhat broader than those in the old law the method of proof in support of exemption claims is practically the same and like the old is exact, carrying with it severe penalties for violations.

That feature of the law is referred to at this time especially to warn people that they should use extreme caution before affixing their names to any affidavit.

The government must deal with millions of individuals and millions of claims and must be exact. While the work of classifying the registrants under the old law was in progress some affidavits were filed, which subsequent investigation disclosed were not wholly in accordance with the facts. Where no intentional wrong was intended the government officials were sometimes lenient and forgive the offense.

This time the government officials cannot be annoyed and delayed by careless affidavit makers. Recklessness of fact will be punished and punished severely, just as a willful wrong. With the tremendous work on hand every man should use every care to see that the affidavit which he is asked to subscribe is strictly according to fact.

## Our Straw Lids

If this September is at all true to its precedents we will have many warm, beautiful days—many of them quite warm during the middle of the day. Of course, that statement it made with a qualifying "if."

If we remember fashion's decree correctly the fifteenth of September is the time to ring the bells on the old straw lids which have rendered so much service during the summer.

Thursday made them look very decidedly pale and out of place and the wearers a little uncomfortable even though bell-ringing time is yet ten days in front of us.

The time of year is at hand when we may expect days—quite a few of them—which will make the thinly clad individuals rather conspicuous.

The heavy rains and the flooded streams will serve to kill off the myriads of mosquitoes and if necessary to have cold weather to free us of those pests our faithful old straw lids may go ten days in advance of their appointed time with never a murmur from us.

## Watch for It

Great events are happening with such startling rapidity these days and our successes are so splendid and conclusive that the developed facts stamp the clumsy German propaganda as a lie before it is well started.

Only a few weeks ago, with the low cunning sometimes possessed by brutes, the German war lords, recognizing the great ability of General Foch, sought to hamper his work of preparation and disarrange his plans by the circulation of propaganda. The French were informed that the British were alluding to General Foch as the leader without initiative.

The propaganda had no effect on the French who recognize the enemy's crude and coarse methods wherever and whenever they appear.

But aside from that, the refutation of the propaganda came, ere it was well launched, in tremendous and successful French and British and American offensives under the leadership of Foch—an offensive which has not only brought decisive defeat to the armies of the Huns, but has brought them to the very edge of a supreme disaster.

Here in America we may be alert now for the German propaganda which will characterize the great French commander-in-chief as a man who is needlessly sacrificing American lives.

While we may expect that soon, America is ready to meet it when it comes. The American people are given all the facts, the casualty lists tell the sad story of the cost and the news reports the victories gained or the disasters averted. The American people are not the German people, although the war lords evidently don't realize that fact. We reason for ourselves. We know that victory cannot be gained over the most blood-thirsty tyrants of all time without paying a frightful price.

America has consecrated her last drop of blood and her last dollar to overcome the world menace and it is not likely that the bungling propaganda of the Huns will have any effect.

## Poetry For Today

### "IT'S MOTHER"

It's Mother that says—when the sun's down the west  
An' the home-birds are fluttering back to the nest;  
When the Quiet is coming, with shadows that seem  
To say to the old folks: "It's time for a dream."  
It's Mother that says: "There are tasks still to do,  
Though it seems to be fireside play-time to you;  
There's home-help and heart-help — when daytime is gone:  
There's a War going on!"

"There's a lad over Yonder," she says, "where the Night  
Is lost to your beautiful dreams of the Light;  
Where the stars have been stormed from the Heaven's high dome;  
And he's fighting for home, dear—he's fighting for Home!  
And the thought of him comes when the long days begin,  
And he's close to the heart when the Night's marching in;  
And home's in the battle in darkness and dawn—  
There's a War going on!"

Then we say, when her hand on his pillow is pressed;  
When she smooths it down—so—like he'd come home to rest:  
"Can't always be fighting there—over the foam:  
Don't you think that tonight he is dreaming of home?"  
And she's quiet-like, then, and looks far, far away,  
And says: "He'll come back to the home-hearts, some day!"  
Then holds us all closer, because one is gone  
And a War's going on!"

## TEACHERS RESIGN AFTER MORE MONEY

By Associated Press Dispatch. Cleveland, O., September 6.—A serious shortage of school teachers is imminent here, according to warning given board of education members by Acting Superintendent Jones. Since late in June about 100 teachers have resigned to take other positions and the resignations are increasing rapidly, dozens having left within the past few weeks. Unless the exodus is checked thousands of pupils will be forced to receive instruction in overcrowded classes.

It is probable, board members say, that unless teachers go into war work, they may be held to the terms of their contracts. It indicated that no more resignations will be accepted unless an accredited government agency certifies to the board that the teachers are needed for essential war work, and that appeals will be made to married women, formerly teachers, to re-enter the profession as a matter of patriotic duty.

# RED SOX WINS FIRST OF SERIES

(American Press)

Chicago, Sept. 6.—The first world's series clash between the Boston Red Sox and the Chicago Cubs was a battle between the two great left-handers, "Hippo" Vaughn and "Babe" Ruth, and although Ruth allowed six hits to his opponent's five, the "break" went to the invaders, who won by a score of 1 to 0.

One of the smallest crowds which ever turned out for a world's series opening saw the game. The paid attendance was 19,241.

The Red Sox scored the only run of the game in the fourth inning, when Shean, first man up, walked and Whitman and McInnis followed with singles.

With two out in the first inning, Mann and Paskert singled off Ruth and Merkle was passed. Pick, however, fled to Whitman, ending the inning. Whitman stepped in between the Cubs and victory again in the sixth. With one out Paskert singled, taking third when Merkle bounced a grounder over Ruth's head. Pick grounded out to McInnis, unassisted, and "Stuffy's" quick throw from first held the Cub second baseman at third. A moment later Whitman raced across the field after Deal's long fly and captured it. After the sixth Ruth pitched airtight ball. Score:

## A SUMMER OUTING OF GREAT EXPERIENCE

Mrs. S. F. DeWees received this week a letter from her son, Ed DeWees, who has been on the Coit Alber Chautauqua circuit this season, written at Gloucester, N. J., on Labor Day.

Taking advantage of the holiday young DeWees visited the shipyards and spent an interesting morning watching them launch the ships. Later in the day he joined a party of Wooster boys for a trip over to Philadelphia.

The day before he had visited Atlantic City and enjoyed a plunge in the ocean.

One of the experiences most enjoyed by the writer was the hearing of the original Sousa's Band, led by Sousa himself, at Washington, D. C.

## FARM BUREAU HEAD FIXES WHEAT PRICE

(American Press)

Washington, Sept. 6.—The average cost of wheat production was estimated at \$2.25 a bushel by E. H. Thompson, acting chief of the bureau of farm management, testifying before the senate agriculture committee. Mr. Thompson said, however, that most of the wheat produced cost considerably less, and that even with a further increase of 10 per cent in costs the farmers of the central west should be able to "break even" at the primary market price of \$2.20 fixed by President Wilson for next year's crop.

In the north central states the cost for the crop of 1917 ran from \$1.59 to \$2.50 a bushel, the committee was told, while for a majority of growers there the cost ranged from \$1.75 to \$2.50 a bushel.

"Then to stimulate production you would have to fix the price above that amount?" asked Senator Norris of Nebraska, referring to the average cost of \$2.25 a bushel. "Most as-

surely," was the reply. "Isn't the cost increasing constantly and now at a very rapid rate?" the Nebraska senator asked. Mr. Thompson said from present indications the cost for the 1918 and 1919 crops would be much higher. He estimated the cost of producing the 1917-1918 crop was from \$2.00 to \$2.50 per cent greater than that during the pre-war period.

Miss Willson leaves the 24th of this month to start in on her college work at Wilberforce University.

## A WISE FRIEND'S NERV-WORTH TIP WORKS OUT WELL

Ends in Curing Headache When Doctors and Other Medicines All Failed.

Nerv-Worth has banished headaches and others aches and pains in thousands of cases. And in doing this it leaves not a trace of harm behind because in it there are no opiates, narcotics, coal-tar products, no habit-forming drugs. Read about this specific case of relief reported to the Nerv-Worth druggist at Gallipolis, O., by Mrs. S. A. Greenlee: "I have been troubled with my head for years and with all my doctoring I never have got any relief. At times my head hurt me, so bad I

would just think I could not live. So a friend told me what Nerv-Worth had done for her, so I got a bottle from the C. D. Kerr Drug Co., and it is helping me so much. I hope these few lines will help some other sufferer to try Nerv-Worth for it is surely a good medicine.

AFTER STRENUOUS MONTH OF BATTLE ON QUIET SECTOR

Lt. L. D. Saxton Writes Interestingly of What Americans Are Doing in the Big Struggle—Admired 23rd on Parade and Two Days Later Becomes Part of It.

Declaring that after thirty days of fighting and changing about he is enjoying a rest on a quiet sector, Lt. L. D. Saxton, of this city, who is now with the 23rd Infantry writes to a friend as follows:

A. E. F. France, A. P. O. No. 719 August 12th, 1918.

Dear Friend:

It has been so long since I have written any letters that I find I am all off my old stride. When I was at school I wrote more or less about what I heard and read. But tonight if I could take the time I could write some rather interesting facts about what I have seen and felt. Take it from me it is much nicer to hear and read about this war game, than it is to experience the thing itself.

I don't remember of writing you since I left the school. In fact since I joined up with this outfit we haven't been doing much clerical work. I reached this regiment about the 6th of July, after spending the 3rd, 4th and 5th in Paris. I watched a part of the 23rd Infantry parade there. They appeared just as they came from the trenches and they sure got their share of the applause. I didn't know then that within a couple of days that I was to become a member of the famous 23rd, but its what you don't know that makes this war game interesting. I'll not attempt to tell you what we have been doing since the 6th of July until the present date. For by the time you get this letter our deeds of the month of July will have become history, yes ancient history so far as the present offensive is concerned.

While it is true we are out of the running now for a few days, we have the satisfaction of knowing that we helped stop the German drive on Paris, and believe me when I say it was the "Sammies," who did that little stunt. The Boche were coming on "hell bent for election" when a couple of divisions of Uncle Sams boys were whipped into line, flopped on their bellies and started firing. There and not one yard beyond is where the German drive stopped.

Then on July 18th and 19th we took part in the counter offensive, which is still in progress and here's hoping it never stops. Since then we have been a little of every where—in the line here and then out to go in some place else. After 30 days of constant moving and fighting, we are settled down in a more or less quiet sector. It is quite necessary that we fill in a few blank files to say nothing of getting some clothes on our backs and a hundred and one other minor details that an outfit needs after a tour of the country such as we had.

It was rather amusing to me that we should stop in the very same sector that I was in, when I was with the French Army last (—). Have only received three letters in something like seven weeks. But every now and then one of the Washington Herald's slip through and I pick up some rare news that I hadn't learned of before. In one of the last ones, I saw, where Sergt. A. Briggs with others had hit our sunny shores. I am going to drop him a line. I would take it from what I read in the papers that most every one I know must be over by now. But never a one do I see.

Remember me to the fellows at home, that is if there are any left there that I know. We can't all fight I know, for some one has to stay at home and keep the old town going. Some day perhaps some of us may be back to see how well that "little job" was done.

Your old pal,  
LIEUT. L. D. SAXTON,  
23rd Infantry.

Secretary Patton is on a short leave of absence, it is understood, and after visiting with his relatives at Springfield and friends here, will return to France to resume his duties with the Y. M. C. A.

Secretary Patton reached his home in Springfield on Wednesday of this week, and has telephoned friends here that he will be down Saturday for a few days.

Arrangements are being made to give him a rousing reception while in this city.
